// LANGUAGES

Spanish — Native

English — Professional

I'm **Alex D. Enriquez Vera (DEV)**, a multidisciplinary full-stack developer: web and mobile apps, games and XR. I move between stacks by understanding the problem first, then choosing the right tool for each case. With formal training in animation and design, I don't just code: **I design and build complete experiences** — from the visual concept to working software. That's what makes me a **creative technologist**.

AREAS:
WEB · MOBILE · GAMES · XR

// Experience

Full-Stack Developer

2025 — present

Web · Apps · Games · XR

End-to-end product development, from initial idea to final deliverable, combining design and code across web, mobile, games and XR.

Independent Developer

2024 — 2025

SPACE DEV

Building websites and games for local clients under my own brand.

Game Developer

2022 — 2024

Indie Games

Projects like Trazando Pasos and Plantain Feast marked my first steps in programming, combining narrative, mechanics and interactive design.

// Featured projects

Trazando Pasos — Videojuego VR ★ Winner · GameJam VRDay Latam 2022

2022

VR experience about migration: immersion makes the player feel the journey, not just watch it. Recognition and certificate from UCSG.

Unreal Engine · Blueprints · HTC Vive Pro 2

Simulación de Soldadura VR ★ Measurable results

2024

VR environment to safely practice industrial welding (U. Politécnica Salesiana). 85% replica of a real booth, +13% lab usage, 72% satisfaction.

Unity · C# · XR Interaction Toolkit · Meta Quest 2

Club de Exploradores — Gamified web

2026

Gamified site paired with a physical puzzle (client Print Craft): QR missions, points and unlockable animals. Increased engagement and product sales.

Astro · React · Tailwind CSS · TypeScript

ALERTA! — Experiencia AR ★ Press

2024

AR for a mental-health exhibition (client Pandecato): brings illustrations to life. Covered by Expreso newspaper and replicated in several Ecuadorian cities.

Lens Studio · JavaScript · Photoshop

Pets — Mobile app

in progress

Full-stack pet care and tracking app (vaccines, feeding, vet appointments). Multidisciplinary team.

Flutter · Dart · Supabase

// Education

B.A. in Digital Animation

2018 — 2023

Universidad Católica Santiago de Guayaquil — the foundation for moving fluidly between visual design and code.
