I'm **Alex D. Enriquez Vera (DEV)**, a multidisciplinary full-stack developer: web and mobile applications, games and XR. I move between stacks by understanding the problem first, then choosing the right tool. With formal training in animation and design, I do not just code: **I design and build complete experiences.**

AREAS:
WEB·MOBILE·GAMES·XR

// Experience

- Full-Stack Developer** 2025 — present
Webs · Apps · Games · XR
Building complete products, from the initial idea to the final deliverable, combining design and code across web, mobile, games and XR.
- Web & Technical Developer** 2026
IDCOM · Metalwork Engineering & Construction
Technical lead for the company: development and maintenance of landing pages, load-speed and SEO optimisation, and integration of forms and analytics.
- Web & Systems Developer** 2025 — 2026
CECP · Medical Specialties Centre
Digital evolution of the brand: website, landing pages and mobile/PC application. Administrator of the EAGLES VISION electronic medical records platform.
- Game Developer** 2022 — 2024
Indie Games
Projects like Trazando Pasos and Plantain Feast marked my first steps in programming, combining narrative, mechanics and interactive design.

// Selected projects

- idcom.com.ec — Corporate site** 2026
Institutional site for a metalwork engineering company: service catalogue in modals, contact form and analytics with cookie consent.
React · Tailwind CSS · Technical SEO · Google Analytics
- cecponline.com — Medical centre** 2026
Commercial site for a medical specialties centre: local SEO, specialist cards with modals, Google reviews and direct booking through WhatsApp.
Astro · Tailwind CSS · Local SEO · WebP
- Club de Exploradores — Gamified web** 2026
Gamified site accompanying a physical puzzle (client Print Craft): QR missions, points and unlockable animals. Increased interaction and sales of the product.
Astro · React · Tailwind CSS · TypeScript
- Trazando Pasos — VR game ★ Winner, VRDay Latam 2022 GameJam** 2022
VR experience about migration: immersion makes the player feel the journey rather than just watch it. Recognition and certificate from UCSG.
Unreal Engine · Blueprints · HTC Vive Pro 2
- ALERTA! — AR experience ★ Press** 2024
AR for the mental health exhibition (client Pandecato): brings illustrations to life. Covered by Expreso newspaper and replicated in several cities across Ecuador.
Lens Studio · JavaScript · Photoshop

// Education

- BA in Digital Animation** 2018 — 2023
Universidad Católica Santiago de Guayaquil — the foundation to move between visual design and code.
